The TOEFL ITP tests:

- **Empower specialized and regular programs with proven English skills**

Assess students' academic English proficiency, especially for those in specialized programs such as Science Classrooms, Gifted/Talent Education Program (TEP), Academic Proficiency Program (AP), Science Math English (SME), English Program (EP), Intensive English Program (IEP), Mini English Program (MEP), English Immersion Program (EIP), English for Integrated Studies (EIS), and regular programs. This prepares students for higher education and provides them with academic English testing experience during secondary education.

- **Open doors to global scholarship opportunities with TOEFL ITP®**

Support applications for scholarships at institutions globally that accept TOEFL ITP® results.

- **Apply TOEFL ITP® scores for university credit and course exemptions**

Allow academic English proficiency scores to be used for course credit transfer or exemption at universities, as criteria specified.

- **Advance higher education goals with verified English proficiency**

Be accepted in applications for undergraduate, postgraduate, and doctoral programs at Thai higher education institutions (for students).

- **Enhance career potential in education through TOEFL ITP® certification**

Support job applications in educational roles, especially academic staff positions.

- **Give students more opportunities**

Help students prepare their academic English skills and proficiency for further study abroad.

Organizations across the globe use the TOEFL ITP assessments to ensure their students are equipped with the english-language skills to succeed globally and strengthen their institution's reputation.
